

# FAO Accession Timeline

➤ **TIMELINE:** Plan your application and apply early!! Many stellar officers won't become FAOs since they miss their application window or commit to other programs

➤ **Selection is conducted through the Voluntary Transfer Incentive Program (VTIP)\***

- \*For CCC Pre-KD CPTs: 5-10% of applicants are accessed through the Talent Based Career Alignment Program (TBCA); see <https://talent.army.mil/tbca/> for more information

- **First Assignment:** Optimally, you should apply before you PCS to your second assignment
- **KD:** Knock out your KD early; eligible to apply once your KD OER (any length) is in IPERMS
- **Mover:** Ineligible to apply while in the job market in the current move cycle (*e.g. 23-02 mover cannot apply for the 2QTR23 panel*)
- **SFAB:** Must complete one year before applying
- **Broadening Opportunities:** Almost all BOPs, USMA, etc., preclude officers from accession
- **OER:** If your OER will not be posted in IPERMS before the application window closes, contact FAO Branch
- Discuss your timeline with the Future Readiness Officer!

# FAO Career Timeline

## Typical lifecycle:

- Years 0 – 3.5: Commission, attend BOLC, PCS to first duty location
- Years 4 – 8: Attend career course, PCS to second duty location, serve in KD
- Decision Point: Broadening opportunities, Fellowships, Functional Areas (FAO)

- **Promotions:** Our MAJ, LTC, and COL promotion rates are, on average, 10 to 20% higher than other branches in the primary zone.
- **Unique Careers:** Every FAO's career is different, based upon one's interests. However, all FAOs receive extensive initial training and serve in a wide variety of assignments.
